**Subject:** RE: (Work Plan) Myox 21 SWD #1 (30-015-22434)

Amanda,

Due to the age of the analytical data, and the massive amount of rain this area received since the sampling event, the OCD would like to see this area resampled for chlorides before proceeding with this work plan. It is quite possible that the chlorides in this area have been driven further down, or even diluted to the point that surface disturbance is not necessary. The OCD would also like to see another sample point added about 50 feet east of sample points 3 and 4, to capture data in what

appears to be the runoff path from the rains.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson  
Environmental Specialist  
NMOCD District II  
(575)748-1283 ext.101

**Subject:** (Notification) Myox 21 SWD #1 (30-015-22434)

Mr. Bratcher,

COG Operating LLC is reporting a release at the **Myox 21 SWD #1 (30-015-22434)**.

The release occurred at 7:00 am on 08/14/2014.

**Released:** 80 bbls PW

**Recovered:** 30 bbls PW

This release was caused by corrosion of a needle valve atop the pumping T. The site is being

evaluated for clean-up and a C-141 submitted. If you have any additional questions please feel free to contact me.

Thank you,

**Amanda Trujillo**
