RE: Lime Rock * Logan 35 Tank Battery * 30-015-30409 * 2RP-3083

Sheldon,

This work plan is approved as written.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather,

Per our conversation today I have included the areas that we have already reached our proposed excavation depths. The remainder of the excavation is scheduled to be completed ASAP. Please let me know if you have any further questions or concerns.

Jeff, I know you have already seen the site and discussed it with Mike Barrett. If you could review this and let me know your thoughts as soon as possible so we can move forward with this remediation/backfill after we complete the Logan Transfer Line, I would greatly appreciate it.

Respectfully,

Sheldon L. Hitchcock
