RE: Yates * Glow Worm ALX Fed Battery * 30-015-35313 * 2RP-2996

Chase,

Your proposed work plan is approved with the following exceptions:

- S5 will need a 3' excavation;
- Please pull a bottom hole confirmation sample at S8 (chlorides only);
- Sampling, and possibly further excavation, will need to be extended west from S8 to the corner of the next well pad where there was a small pooling area;
- Like approval by BLM is required for this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mr. Bratcher/Mrs. Patterson,

Yates Petroleum Corporation is submitting the attached work plan for the above captioned well. The plan is being submitted in response to the C-141 report dated May 8, 2015.

If there are no objections with the scope of work described in the plan, Yates will have a contractor begin work on or after August 1, 2015.

If you have any questions, feel free to call me at (575) 748-4171

Thank you.
