RE: Enterprise Field Services, LLC \* 1009 Gathering Lateral \* M-23-22s-30e \* Eddy County, NM  
NMOCD Tracking number: **2RP-2937** \* Date of release: 3/29/15

Greetings,

Your proposal for additional delineation at the above referenced release site is approved. Be advised that additional remedial action may be required based on the delineation results. OCD notes the following:

The form C-141 initial report indicates that 2 bbls of pipeline liquids were released. The current proposal indicates a release of 29 bbls of pipeline liquids. Please clarify the release volume.

The current proposal refers to an attached "figure 1", which shows the approximate area of impact. Figure 1 was not included in the submittal. Please provide figure 1, and a table/tables showing any analytical data obtained to date.

Like approval by BLM is required on federal sites.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

**Subject:** Line 1009 Remediation Plan

Mr. Bratcher, attached is a proposed work plan to complete vertical delineation of the pipeline liquid spill that occurred on March 29, 2015 from our line 1009. Currently, the excavation is open and Enterprise would like to proceed with the proposed plans to mobilize equipment and personnel

once we receive confirmation from your office. Please contact Mrs. Dina Ferguson with any questions, [djferguson@eprod.com](mailto:djferguson@eprod.com) or 210-232-4880.
