Mr. Bingham,

Thank you for the report and C-141. While OCD does not typically encourage use of impacted materials for construction purposes at this time, OCD did not respond in a timely manner to reports that were sent by Trinity River and/or Legend Natural Gas, in this instance. This remedial project is considered closed by OCD with no further action required. Approved closure documents may be reviewed at OCD Online under Admin Orders by querying 2RP-2411. A copy of the approved Final C-141 will also be available in the well file (30-015-41094).

Thank you for your cooperation and patience.
