Vernon,

The BLM has reviewed your submitted work plan. Based on the proposed plan, the BLM **denies** the plan as written. Full delineation of the site will be required prior to any approval of requested activities.

The BLM approval/acceptance does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

Good morning Gentlemen,

Please see the attached remediation work plan for the above referenced location. Let me know if you have any questions.

Thanks in advance for your help.

Vernon
