RE: COG * Copperhead 31 Fed Com #2H * 30-015-39791 * 2RP-3354

Austin,

Your work plan for the above referenced site is approved with the following conditions:

- A 4' excavation will be required in this area;
- The OCD will need a vertical delineation. Chloride delineation goal is 250mg/kg;
- Like approval by BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
Environmental Specialist
