DIRT WORK \* ON-SITE REMEDIATION  
SOIL TESTING \* EXCAVATION \* ELECTRICAL

11Dec15

To: Heather Patterson, NM OCD  
Jim Amos, BLM  
Reference: Remediation Work Plan-Amendment  
Location Pure Gold C-17 Fed #4  
Operator: Devon Energy Production  
API: 30-015-27153  
Legals: UL. H, Sec. 17, T23S, R31E, Eddy County  
GPS: 32.3067 -103.7921  
2RP-3324

I propose the following amendment to the Remediation Work Plan as submitted for the above referenced location on 10Dec15.

The impacted area at and/or around SP #2 will be hand excavated to a depth of two foot BGS thus loosening the soil to allow a more direct path for the MicroBlaze concentration to reach the two foot depth where elevated hydrocarbons are present.

The over spray area in the pasture will be sampled and analyzed confirming the field test results. The results will be included in the closure documents.

Thanks,

---
