**Attachments:** Enlink Devon Cotton Draw 172H Workplan (rev).pdf

Mike/Shelly,

Attached is the proposed work plan for remediation of the Devon Cotton Draw 172H. Please let me know if OCD and BLM approve and we will schedule to perform the work. If this needs to be submitted formally, please let me know.

If you have any questions, please contact me via cell phone or email.

Regards,

**Benjamin Aucoin**

Thank you...Have dealt with EnviroClean on several projects. Shouldn't be any issue.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The BLM acceptance/approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Shelly,

Thank you for the acknowledging receipt of the notification. I would also like to update BLM and OCD by saying that we have contracted EnviroClean Services to perform the remediation work. I have informed them that full analysis and delineation must be part of the work plan. I anticipate submitting the Work Plan to BLM and OCD early next week.

If I can be of further assistance prior to submittal of the Work Plan, please don't hesitate to contact me at any time.

Thanks.

Mr. Bratcher and Ms. Tucker,

Please accept this email and the attached C-141 as confirmation of initial notification and initial spill report for a 67 bbl spill (44 recovered) by LPC Crude Oil Marketing, LLC that occurred in Eddy County at N 32° 09' 9.41"; W 103° 43' 38.37" on 11/11/15 at 10:30 PM. This spill from the transport truck occurred on a Devon pad (Cotton Draw 172H) and did not leave the site. A vacuum truck was able to recover 44 bbl of spilled crude oil.

This is the first notification and report of this nature that I've had to make, so if there is any additional information that you need or that I haven't included in the C-141, please contact me so I can provide this information to you. I appreciate your patience as I learn this process.

If I can be of further assistance, please contact on my cell phone (225-313-1338) any time.

Regards,

**Benjamin Aucoin**
