RE: Oxy * Two Marks 32 State #4 SWD * 30-015-34833 * 2RP-2977 * 2RP-3122

Kathy,

Your closure request for the above listed site is approved. Your report also includes the tank overflow that occurred in the lined battery. This release was reported on a separate C-141 (2RP-3125) from the dump line leak (2RP-3122). **Please send a final C-141 for 2RP-3125 to close it out also.**

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
