Willow Lake
30-015-21499

Hello Mike,

I am writing to you today for the RP # for Willow Lake incident back on April 25, 2014. We need to close this up as soon as possible. We have excavated and hauled off 444 cu yards of impacted material to R 360 disposal sight. Samples were than obtained by Talon LPE to confirm removal of the impacted material. On June 17 Sheldon reported back to us that everything was clean and good to that we are able to backfill now. On which S&B replaced with fresh clean soil and we were able to seed on the private owner's land. SB reclaimed the property. I sent you yesterday all run tickets. Now I am just waiting to hear back from the land owner Scott Branson with a letter of approval for OCD to close out the RP for Willow Lake.

Any questions please do not hesitate to get in touch with me or Jerry.

Best Regards,

Audra L. Burton
