RE: Enterprise Field Services * Pipeline ROW 1009 Gathering Lateral * M-23-22s-30e
2RP-2937 * Date of release: 3/29/2015

Greetings,

Pending like approval by BLM, OCD does concur with your proposal for no further action at this time for the above referenced release. For future reference, OCD would prefer to have had some data obtained from the 15' – 22' interval.

Please submit a Final Report C-141 for site closure.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
