RE: BOPCO * PLU 68 * 30-015-25781 * 2RP-1658

Bradley,

Your closure request for the above listed release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson

Mike/ Heather

While reviewing the audit sheet and well file I discovered the attached documentation. The initial release was 5 barrels of oil, the area was scraped up with a backhoe and sampled then backfilled with clean material to allow access to the area, according to the initial C-141. Based on the attached information I would like to request closure for 2RP-1658. If you have any questions please let me know. Thank you

Brad Blevins
