Heather,

I have no issue with supplying you with delineation samples however I feel it is too dangerous to sample on this site. The metal teeth on a hand auger can puncture a conduit or line. I personally would not feel comfortable sampling myself or asking another person to do it. I have attached a picture of the open trench for your consideration. I understand where your position on closure and I'd be happy to discuss other options. If you would like we can meet this week or next.

Thank you,

Amanda Trujillo

RE: COG * BKU Central Tank Battery SWD * 30-015-27764 * 2RP-2565

Amanda,

While I agree that this site is a good candidate for cleanup deferment, the OCD cannot approve one

without a site delineation. Please delineate the site to the extent that can be achieved safely. Once that delineation is supplied to the OCD we will be able to grant your remediation deferment.

If you have any questions or concerns please contact me,

Heather Patterson

Subject: (Notification) Burch Keely Water flood Central Tank Battery

Mr. Bratcher,

COG Operating LLC is reporting a release on the Burch Keely Water flood Central Tank Battery

Section 24 Township 24S Range 29E

The release occurred at 12:00 pm on 10/10/2014.

Released: Produced Water 45 bbls

Recovered: Produced Water 40 bbls

The release was caused by a pump failure. The site is being evaluated for clean-up and a C-141 will be submitted. If you have any additional questions please feel free to contact me.

Thank you,

Amanda Trujillo
