RE: Oxy USA * State 2 #3 CTB * 30-015-26877 * 2RP-2975

Cliff,

Thank you for the information. Due to equipment, the cleanup for this location (area of S2 in particular) will be deferred until site abandonment. A notation will be posted in the well file to reflect this deferment.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: RE: Closure report, State 2 #3 CTB

Heather,

To confirm our conversation this morning, the excavation depth was approximately 1 foot and no confirmation sample was taken. The work was completed by another Oxy contractor. However, per our discussion, this site will be deferred and no confirmation sample will be taken due to the known fact that chlorides exist at depth.

Thanks, Cliff

Kathy,

Do you have the excavation depth that was achieved at S2, as well as the requested confirmation sample?

Thanks,

Heather Patterson
