Subject: RE: Cotton Draw Unit 153H_40bbl oil spill_7.19.15
Date: Friday, April 01, 2016 11:46:00 AM

Ms. Fisher,

Before the OCD can accept a closure on this release, we need to receive an initial C-141 for the chloride contamination that was discovered on this location, but not addressed by this closure report. If Devon has concluded that this contamination is from the October 2012 incident, then that C-141 permit (2RP-1329) must be revised to show fluids left secondary containment.

Thank you,

Heather Patterson

Good Morning,
Attached please find the Final C-141 and Closure Report for the 40bbls oil release at the Cotton Draw Unit 153H on 7.19.15.
We respectfully request that no further actions be required.
If you have any questions please feel free to contact me.
Thank you,

Sheila Fisher
