RE: Chevron * Skelly Unit 936 * 30-015-32595 * 2RP-1010

Mr. Gwin,

Your request for closure of the above listed release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike and Heather,

I received this closure report from the Chevron EMC group related to 2RP-1010, Skelly Unit 936. Robert Spencer indicated that it was uploaded to the OCD website and I wanted to make sure you had received it. If you have any questions please let me know.

Thanks,

Stephen Gwin ●●
