RE: Yates Petroleum * Aparejo APA Battery * 30-015-28327 * 2RP-3035

Amber,

Thank you for the revision and clarification. This work plan is approved as written.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather,

Attached is the Aparejo work plan with a better site diagram. I didn't realize the colors I had originally used didn't show up when I scanned the document, sorry about that. I also made the few wording changes you requested on the phone yesterday.

Thank you,

Amber Griffin
