RE: Devon Energy * Cotton Draw Unit SWD #181 * 30-015-41649 * 2RP-3362

Rebecca,

Your proposed work plan for the above listed site is approved with one exception: the OCD would like lab confirmation samples from the pad area instead of field screens.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: Devon Cotton Draw 181 Workplan

Good Morning,

Per your request: I have revised the work plan for remediation of the Devon Cotton Draw 181.
Please review and advise me if you have any concerns and if you concur.

Thank You

Rebecca Pons
