---

Thank you, your backfill request is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mr. Dominguez,

Do you have a site map for this location?

Good morning,

Attached are the laboratory analytical results for the Goldenchild 6 State #1, operated by

XTO. The site has been excavated to one (1) foot bgs in the areas of SP1 and SP3; the area of SP2 has been excavated to two (2) feet bgs. EPI proposes to backfill the excavation with clean soil. After backfill activities are complete a Final Closure report will be submitted.
