Good Afternoon,

The Myrtle Myra #8 (30-015-21650) has an open environmental compliance permit that will need to be closed before this site can be released. I have attached the Initial C-141 submitted by Endurance Resources for your reference. Please send me your closure documentation or contact me for closure requirements.

Please don't hesitate to call if you have any questions or concerns.
Thank you,

Heather Patterson

Karen,

Attached is a C-103 on the extra remediation work that was required on the Myrtle Myra 8.

Hopefully this will get this well closed and release the bond.

Let me know if there are problems.
