---

Ms. Wilson,

The BLM has reviewed your proposal and concurs with the NMOCD without any additional stipulations.

The BLM approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Sincerely,

*Shelly J Tucker*

Ms. Wilson,

Your proposal to use bioremediation in this release area is approved with the

following stipulations:

- The OCD will require an excavation of contaminated soils. Excavation depths are to be determined by safety conditions and accessibility.
- Treatment may then be applied to the remaining soils.
- Confirmation samples should follow the same program as initial sampling (down to 6 feet at S-1, 5 feet at S-2, and 2 feet at S-1).

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

RE: Devon \* Hackberry 18 Fed #1 \* 30-015-29780 \* 2RP-2959

Kimberly,

Your proposed work plan for the above listed site is denied due to a lack of BTEX delineation at S-1 and S-2, and TPH delineation at S-1.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

**Subject:** Hackberry 18 Federal #1

Good Afternoon All,

Attached is the work plan for the above referenced release. I have already made the one call for this incident which has already cleared. We will be moving equipment to the site tomorrow.

Thank you.

Respectfully Submitted,

Kimberly
