**Subject:** Re: Proposed work plan, Devon Hackberry 18

BLM accepts/approves the proposed work plan and concurs with the NMOCD stipulation...if this action is ineffective, further remedial action will be required.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

**Subject:** RE: Proposed work plan, Devon Hackberry 18

RE: Devon Energy \* Hackberry 18 Fed 1 \* 30-015-29780 \* O-18-19s-31e

**2RP-3272** \* Date of release: 9/14/2015

David,

Your proposal for remediation of the above referenced release is approved. It is OCD's understanding that excavated material from the 4/14/15 release (**2RP-2959**) is still stockpiled on location, and that this material will be included in the proposed treatment process. In the event the proposed remedy is ineffective, alternative remedial actions will be required. Federal sites will require like approval from BLM. Please notify the OCD District 2 office once remedial activities have been scheduled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

**Subject:** Proposed work plan, Devon Hackberry 18

All,

Attached please find our proposed remediation plan for the above referenced project. We're proposing on-site remediation using a soil shredder with spray applications of hydrogen peroxide along with confirmation sample analysis. We have several of these working successfully in Texas and the technology is approved by the TXRRC and TCEQ. A link to a YouTube video is provided below. Please right click on the link and then select open hyperlink to see a soil shredder at work.

<https://www.youtube.com/watch?v=fbR4gxM9a5o>

Let us know if you have any questions. We are respectfully requesting permission to use this technology and we hope that you would be able to visit the project once the process is underway.

Thank you.
