| Was a Watercourse Reached?<br><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No  | If YES, Volume Impacting the Watercourse.                  |   |

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

This release was caused when a poly flowline was hit by a vehicle and damaged. The line was shut in and vacuum trucks were dispatched but were unable to recover any fluid.

Describe Area Affected and Cleanup Action Taken.\*

The release is located in the pasture approximately 0.75 miles to the northeast of the well pad. The area of impact is approximately 225' x 150'. Remediation work was completed per the NMOCD/BLM approved work plan on June 6, 2016.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
