Subject: Re: (Closure) Burch Keely Water Flood Central Tank Battery

Afternoon,

I did not receive a copy of this closure report to review. Please forward at your convenience.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Shelly J Tucker

The BLM acceptance/approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

RE: COG Operating * BKU Central Tank Btry (BKU 221) * 30-015-27764

2RP-3237 * Date of release: 8/20/15

Mr. Grubbs,

As a condition of approval for this release, OCD requested additional delineation at S2, which has been provided, and analytical data from the pad area. Data from the pad area is not included in this closure request, so closure at this time, is denied. Please advise of COG's intent as to investigation/remediation of the pad area.

Thank you,

Mike Bratcher
