RE: COG \* BKU Tank Battery (BKU #221) \* 30-015-27764 \* 2RP-3237

Amanda,

Your request for closure for the above listed release is approved. The portion of this release that covers the pad will be deferred due to equipment and buried lines that make it impracticable to remediate.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson

Subject: (Supplemental Data - Closure) Burch Keely Water Flood Central Tank Battery

Mr. Bratcher,

I have attached a copy of the requested laboratory analysis for the pad area. This should complete the outlined COA for closure. At this time I'd like to request closure. Please let me know if you have additional questions or concerns.

Thank you,

Amanda Trujillo Davis

RE: COG Operating \* BKU Central Tank Btry (BKU 221) \* 30-015-27764  
2RP-3237 \* Date of release: 8/20/15

Mr. Grubbs,

As a condition of approval for this release, OCD requested additional delineation at S2, which has been provided, and analytical data from the pad area. Data from the pad area is not included in this closure request, so closure at this time, is denied. Please advise of COG's intent as to investigation/remediation of the pad area.

Thank you,

Mike Bratcher
