---

Christine,

I plotted the GPS cords you sent me and you are bordering State Land not Federal. From the data I have, you do not have any ARC or Paleo concerns. Let me know if you need anything else.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The BLM acceptance/approval does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

| As discussed this morning, here is the C-141 for the spill at the TX lease.

Please let me know if you have any questions. I will wait for the ARC and Paleo clearances before we move forward.

Thanks!
