RE: Judah Oil \* Ford State 2 \* 2RP-4081 \* DOR: 1/20/17

Heather,

The submitted proposal for remediation of the above referenced release is **not** approved. OCD will require a vertical delineation prior to consideration of a remediation proposal. At least two more sample points will be required in the southern portion of the spill, and, based on data submitted, in-situ bioremediation will not be an option for this site. Please complete the delineation and provide an alternative remediation proposal.

If you have any questions or concerns, please contact me.
