RE: Devon * Hackberry Containment and Recycling Facility * 2RF-105

Mr. Harvey and Mr. Sawyer,

The above listed recycling facility and containment has been approved. The included variance request has also been approved. Your registration number is 2RF-105, please reference this number when submitting your C-148 to district 2. Sorry about the delay on this one.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Dr. Oberding

I have attached the C-147 Recycling Containment package for the Hackberry Treated water pond. I believe the attached package meets or exceeds all of the requirements under the State Rule. There is also a request for a variance (#7) and an attached letter from Jeffery Sawyer P.E.

Kindest regards,
