Mr. Bratcher

We are in the final stages of preparing the notice of impact along with proposed locations for two additional monitoring wells.

You should see it by COB on Friday or Monday morning at the latest.

Sorry it has taken as long as this.

RE: Lime Rock Resources \* ASAU Trunk Line Release \* **2RP-3893**

Mr. Barrett,

As we are now three months past the ground water sampling event for the above referenced release, OCD requests analytical data from that event, and, Lime Rock's proposal for moving forward on this project be submitted to OCD not later than 5/22/2017.

If you have any questions or concerns, please contact me, or Bradford Billings in the Santa Fe office.

Thank you,

Mike Bratcher

Bradford and Mike

The attached was written on 1/10 and you should have received it on the 11<sup>th</sup>.

I have no record that the attachment left my email. The well is being installed today, which is how I realized I had no record of this going out.

I believe I faithfully recorded the conversation with Bradford with respect to responding to the denial of the initial workplan.

Randall Hicks
