Attachments: RDX Section 16 - Liner System Variance.pdf

Good morning Brad,
Attached is the liner variance request we discussed yesterday.
Please let me know if the information included in this submittal is sufficient.
Thank you so much for your help,

Subject: RKI RDX Section 16 Recycling Containment Registration 2RF-109 - liner system change

Good afternoon,

We would like to change the liner system from the one that was proposed with the C-147; instead of using a 40 mil and 60 mil we would like to line the containment with two 60 mil liners. Should I submit a Sundry C-103 with the proposed liner system or is there another (better) way to do this?

Thank you so much for your help.
Have a great weekend,

Greetings,

RKI's Form C-147 registration for the above referenced recycling containment, including three variance requests (secondary liner, fencing and netting), is approved. The OCD tracking number for this containment is **2RF-109**. Please reference this number on any future correspondence, and when submitting monthly Form C-148 fluid volume reports. Please insure the environmental specialists in the Artesia District 2 office are copied when submitting these reports. Currently, that will be Crystal Weaver and Mike Bratcher. As a condition of approval, RKI agrees to construct, operate, maintain, and, close the containment in full compliance with all aspects of [19.15.34 NMAC]. Also as a condition of approval, OCD requests verification that a copy of this registration has been provided to the surface owner, and, a copy of the Form C-147 marked "Registration" (instead of permit) be provided to the District 2 office. Please advise the District 2 office once construction of the containment has been scheduled. A hard copy of this approval will not be sent.

If you have any questions or concerns, please contact me.

Mike Bratcher
NMOCD District 2

OCD approval does not relieve the operator of liability should their operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
