The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Good Morning,

Please find attached the Initial C-141 and GIS Image of the Laguna Salado South 1 release of 128 BBLs produced water and 2 BBLs Oil that occurred on 2/15/2017. Please be advised that the blue dot on the GIS Image represents the approximate location of the origin of release.

Please contact me with any questions you may have.

Thank you very much and have a wonderful day.

Respectfully,

*Sarah Gallegos-Troublefield*
