RE: Plains Marketing * Belloq 2 (Devon tank battery) * Fab1720534822 * 2RP-4299

Camille,

Sorry for the delay on this one. It and quite a few others had been misplaced. I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval. The OCD tracking number for this event is 2RP-4299. Considering the delay OCD will accept release characterization work plans 15 days from today's date.

Thank you,

Crystal Weaver

Subject: Plains Marketing Initial C-141 for the Belloq 2 Crude Oil Release

Good Afternoon Everyone,

Please find attached the Initial C-141 for the Plains Marketing crude oil release which occurred on July 17, 2017, at the Devon Belloq 2 Tank Battery. A Plains transport driver was loading crude oil when his belly hose failed releasing approximately 20 barrels of crude oil with 0.5 barrels recovered. The site is located in Unit Letter "D", Sec. 2, T23S, R31E in Eddy County, on property owned by the NMSLO. The crude oil impacted material was excavated and stockpiled on plastic pending transportation to an NMOCDD permitted facility. Soil samples were collected from the excavated area and submitted to the laboratory for analysis.

Please contact me with any questions or concerns.

Respectfully,

Camille J. Bryant
