The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

**Subject:** Government T Com #001 South Oil Tank

This is to inform you that Oxy Permian had a release at the Government T Com #001 South Oil Tank on December 18, 2016. Oxy released 100 bbls of produced water due to failure of a gasket on the manway cover. The preliminary report indicates that the leak measures 6' X 600' inside the containment on location. A vacuum truck recovered 60 bbls of produced water. The release is located in U/L C, Section 14, T20S, R28E in Eddy County, NM. Driving directions are not available at this time. GPS coordinates: N 32.57850 W 104.15020 API# 30-015-20958
