---

Ms. Weaver / Ms. Groves,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

RE: COG \* Buena Vista 2 State #1H \* 30-015-40789 \* 2RP-4302

Dakota,

Sorry for the delay on this one. It and quite a few others had been misplaced. I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval. The OCD tracking number for this event is 2RP-4302. Considering the delay OCD will accept release characterization work plans 15 days from today's date.

Thank you,

## Crystal Weaver
