Emily,

This release occurred on federal surface. Please ensure the BLM is copied on all correspondence regarding this release. You will also need to obtain authorization from us before commencing with remedial activities.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

RE: Maverick Operating \* Poker Lake UT 36 \* **2RP-4136** \* DOR: Discovered 2/26/17

Emily,

I have received the analytical data for the PLU 36, but I do need an electronic version of it also. Based on the data, OCD will require additional chloride delineation at all sample points except S4.

If you have any questions, let me know.

Hi Mike,

I sent in the requested info from you after hiring a third party environmental company for the poker lake 36 that should be coming in to your district office. Please advise me what I need to do after you have received. Is there anything else that you are missing from us at Maverick Operating?

Thanks,

*Emily C. Sirgo*
