Type of Release: Oil	Volume of Release: 20 bbls Oil	Volume Recovered: 18 bbls Oil
Source of Release: Tank Over flow	Date and Hour of Occurrence: 1/5/2016 2:00 pm	Date and Hour of Discovery: 1/5/2016 2:00 pm
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

This release was caused by a tank that overflowed during a storm that caused accessibility to be limited.

Describe Area Affected and Cleanup Action Taken.*

This release occurred within the earthen containment and in the adjacent pasture. Concho had the spill site sampled to delineate any possible impact from the release and presented a remediation work plan to the NMOCD for approval. All remediation work has been completed according to the workplan approved by the NMOCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
