RE: Mewbourne Oil Co * Quick Draw 22 D 1 Battery * **2RP-4304** * DOR: 7/22/17

Greetings,

OCD concurs with BLM approval and condition of approval, for remediation of the above referenced release. Please advise once remedial activities have been scheduled.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

BLM approves the work proposal with the following stipulation that sample point L5 is fully delineated horizontally and vertically. NMOCD approval is required.

If you have any questions or concerns, please do not hesitate to contact me.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
