RE: COG * RJ Unit #126 * 30-015-03784 * 2RP-4520

Hello all,

OCD concurs with BLM on the approval of this work plan. Just for clarification excavation for the T-1 area will need to go thru the whole 3' interval.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact Mike Bratcher and/or myself in the District II Office.

Crystal Weaver

The line broke in the area of T1. The areas of T2 T3 and T4 were impacted by a light overspray. I apologize for not including that in the workplan.

**** External email. Use caution. ****

Good Afternoon Dakota,

I'm surprised the chlorides impacted just one area and trying to figure out how that could've happened.
