RE: Devon \* Doc Holliday 32 State COM #1 \* 30-015-41145 \* 2RP-4547

Hello all,

This location is upon federal surface and involves State Land Office mineral rights. So, unless I am mistaken on this info, both of those parties should have been included on this work plan submittal and have thus been included now.

With that being said the work plan is approved by OCD as written.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact Mike Bratcher and/or myself in the District II Office.
