OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

BLM accepts your proposal. Sidewall samples from S1,S2 and S3 will need to be obtained to verify removal of impacted material.

NOTE: LPC Timing Stipulations are in effect - from **March 1st through June 15th. Please plan remedial activities accordingly. Check for African Rue...treat (before it gets out of control).**

If you have any questions or concerns, please do not hesitate to contact me.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. **In such an event a site does not achieve successful restoration, or future issues with contaminants are encountered, the operator will be asked to address these issues until they are fully mitigated and the location is successfully reclaimed.** In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Mike and Shelly,

Please review, at your earliest convenience, the attached work plan for the Cotton Draw Unit #122. On behalf of our client, Devon Energy, we are respectfully requesting your approval to proceed with these remedial actions.

If there are no objections with the scope of work described in this plan, we would like begin work on or after the week of May 14, 2018.

If you have any questions or concerns please feel free to contact our office. Thank you.

Respectfully submitted,

Kimberly M. Wilson
