**Subject:** Chi Operating BDU-6 Delineation - CHI TO IMPLEMENT DELINEATION PROPOSAL TUESDAY MAY 8 - START 9 AM  
**Attachments:** TrenchSamplingFieldMethod.pdf

All

Chi Operating and Hicks Consultants will implement the proposal to complete delineation of the release on Tuesday May 8, beginning at 9 am.

Mike Stubblefield will collect the samples in accordance with the attached SOP and deliver the samples to Cardinal Labs in Hobbs. We anticipate completion of the vertical sampling effort by early afternoon. Moving the stockpiles to the lined and bermed location will commence soon after completion of the vertical delineation program.

Sampling the stockpiled material after spreading on the lined location will occur at a later time and we will provide 48 hours of notice prior to any sampling event.

Thanks all.

BLM accepts your delineation proposal.

**NOTE: LPC Timing Stipulations are in effect - from March 1st through June 15th. Please plan remedial activities accordingly. Check for African Rue...treat (before it gets out of control).**

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. **In such an event a site does not achieve successful restoration, or future issues with contaminants are encountered, the operator will be asked to address these issues until they are fully mitigated and the location is successfully reclaimed.** In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.
