The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Sheldon,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4532, please refer to this tracking number on any and all submissions sent in to the OCD. **Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 1/26/18.**

Thank you,

Ms. Weaver/Ms. Tucker,

Please see the attached C-141 for your consideration. Please note that this well is on private surface however it does have federal minerals. Let me know if you have any questions or concerns.

Thank you,
