Good morning Mike,

Attached is the final C-147 report for closure of the above storage tank at the RDX Section 16 location. The laboratory data and sampling map are included with the report.

Please let me know if you need any additional information to close this site.

Thank you and have a great day,

Subject: RKI Section 16 above storage tank - C-147

Good morning Mike,

Attached is the RDX Section 16 Tank Closure notification (2RF-117). We removed the tank and the area underneath the tank will be sampled when the secondary containment liner is removed. I will submit the final closure report when the sampling activities are completed. The tank was located at the RDX Section 16 recycling containment site (2RF-109) so the tank site will not be reclaimed until the entire facility is closed.

Please let me know if you have questions or comments.

Thank you and have a great day,

Karolina,

As an addendum to the email approval for the above referenced Recycling Containment, I failed to list the name of the containment in the approval. It is as listed above.

Thank you,

Karolina,

Your form C-147 for registration of a Recycling Containment, as referenced above, is approved, and has been assigned an OCD tracking number of **2RF-117**. Please reference this number when submitting monthly form C-148 volume reports. As a condition of approval, the operator (RKI E&P), agrees to construct, operate, maintain, and close the containment, in full compliance with all aspects of 19.15.34 [NMAC].

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
