Date: Wednesday, November 7, 2018 6:51:00 PM

Hello Mr. Titsworth,

OCD has received your C-141 work plan for 2RP-4805, thank you. At this time OCD cannot approve this work plan. At a minimum the remediation plan should:

1. Address chlorides.
2. The responsible party must provide an affidavit that the process by Aspen Grow does not include any items on the State of New Mexico WQCC Dissolved Toxicity Constituents under 20.6.2.7(ww) NMAC.
3. The top 4' of soil in the pasture must be a non-detect or background for all 4 Table 1 constituents.

Please let me know if you have any questions or need further assistance.

Best Regards,

Maria Pruett

Maria

Sorry for the delay. Attached is the new C-141, along with the work plan for the GJSAU 22 Inj line release. Please let me know if I am missing anything else. Just a reminder, this location is in an ARC site. I am in contact with Shelly to make sure we are working within their regulations, but we will keep you updated.

Hello Mr. Titsworth,

I was not able to find an OCD Remediation Plan approval, does this spill, 2RP-4805, have one? If not, please fill in page 5 of the updated C-141 form and submit required documentation.

Best Regards,
