Mike,

I must have skipped over that box. You are correct it should be marked "NO". I'm not seeing any springs or wells within 500'. Sorry about that.

Thank you,

RE: **2RP-5043**

Sheldon,

I am using this remediation proposal for training and noticed that on the Site Characterization portion of the C-141, the following box was not checked:

Are the lateral extents of the release within 500 horizontal feet of a spring or a private domestic fresh water well used by less than five households for domestic or stock watering purposes?

I think it should probably be checked "NO" but wanted to confirm with you.

Thanks,

Mike Bratcher
