Good afternoon,

Please see the attached initial C141 and supporting documents. Also, my apologies, but I had a typo in the calculation and the release was 9.62 bbls instead of 12.69.

Callie

Good evening,

The threads on the water leg of the free water knock out washed out, releasing 12.69 barrels of produced water into lined containment. Standing fluids were recovered.

Thank you,

*Callie Karrigan*
