RE: Closure Request 2RP-4957 - Final C-141 Remuda Basin 4-24-30 Btry (30-015-40660) release 8-18-18

Ms. Ruth,
OCD has received your final C-141 and closure request for **2RP-4957** Remuda Basin 4-24-30 Btry (30-015-40660) release 8-18-18, thank you. This closure is approved. Federal sites require like approval from BLM.
Regards,

Victoria Venegas
EMNRD
OCD-District II
811 S First St. Artesia
NM 88210
Victoria.Venegas@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] Closure Request 2RP-4957 - Final C-141 Remuda Basin 4-24-30 Btry (30-015-40660) release 8-18-18

Good Afternoon,

Attached is a final portion of the C-141 detailing the release event at the referenced facility that occurred within lined containment in August of last year (see attached and below). Due to our unfamiliarity with the new rule at the time, we missed submitting a 48 hour advance notice of containment inspection. The photos below were taken on the day that the initial C-141 was due. The liner was inspected and determined to be intact and operating as designed.

Please call with any questions or concerns. Thank you.

Respectfully,

Amy C. Ruth

Subject: Release notification - Remuda Basin 4-24-30 battery (API for PLU CVX JV RB 001H: 30-015-40660)

Good evening, I am writing to notify of a spill greater than 25 barrels at the Remuda Basin 4-24-30 battery. We are using the API number for the PLU CVX JV RB 001H since that well is on the same pad as the battery. Please don't hesitate to contact us with any questions.

Thank you,
