Attachments: Work Plan Conditional Approval - Read & Stevens - Saragossa 10 St #2 - (2RP-5380) 5.13.19.pdf

Eric,

We have received your Workplan/Remediation Proposal for **2RP-5380 Saragossa 10 St #2**, thank you. This Workplan/Remediation proposal is conditionally approved. All samples appear clean at a depth of 2 feet. Pad Area Polygon #1 was proposed to be excavated to a depth of 6", Pad Area Polygon #2 to a depth of 10", and Polygon #3 to a depth of 4". Republic Backhoe might need to excavate deeper than these proposed depths. The samples clean up somewhere between surface and 2 feet on all samples. Not sure if its 4 inches or 24 inches? The site will need to be remediated to the <50 ft closure guidelines and all closure samples should meet the OCD <50 ft soil sample limits.

Please let me know if you have any further questions.

Regards,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: FW: Saragossa 10 #2 Report with Spill Calculation

I have two projects from Eric Garcia, for Read & Stevens. The C-141s have been processed already, if ya'll would, just put them in line for review at some point.

This one is #1 of 2 – **2RP-5380**

Thanks - mb

Eric,

I am forwarding this submittal, but going forward, please send all environmental correspondence for District 2 to Maria Pruett. You can go ahead and copy me for now, but Maria will be your point of contact for environmental issues.

Maria's email address: maria.pruett@state.nm.us
