Subject: RE: Longfellow Energy, LP - State 20B Release - Form C-141 Submittal

Good Morning Ms. Logie,

Thank you for this information! Please supply spill calculations for this spill so we may process this form. Additionally, was this containment lined?

Best Regards,

Maria Pruett

Subject: [EXT] Longfellow Energy, LP - State 20B Release - Form C-141 Submittal

Mr. Griswold, Mr. Bratcher, and Ms. Pruett:

Sport Environmental Services, LLC (*Sport*) has been retained by Longfellow Energy, LP (*Longfellow*) to assist with C-141 submittal, remediation and reporting associated with the State 20B release. The release occurred on November 4, 2018 and was caused by a lightning strike which in turn caused pump failure and resulted in a tank release. The released produced water was fully contained within secondary containment and all free fluids were recovered immediately following release discovery. Attached please find the **initial, signed Form C-141** associated with this release. Longfellow personnel reported the release to NMOCD District 2 at the time of discovery.

In addition, please find a **Form C-141 Supplement** which outlines additional assessment work performed inclusive of release impact mapping, geo-tagged site photographs, and groundwater depth determination documentation.

Once initial analytical results are received, a remediation work plan will be submitted to the NMOCD for approval. Advanced notification of field activities and official sampling events will be provided at least 72 hours in advance.

If you would like to discuss this matter in greater detail, please don't hesitate to contact us.

Thank you,

Cianna Logie
